

A Tribe Called Programmer

The Software Developer Community and Why You Should Join

Jerry D'Antonio
Principal Software Developer
Virtual Hold Technology

Presented at The University of Akron
Senior Seminar, Computer Science
Dr. Kathy Liszka

community

"A **community** is a social unit of any size that shares common values."

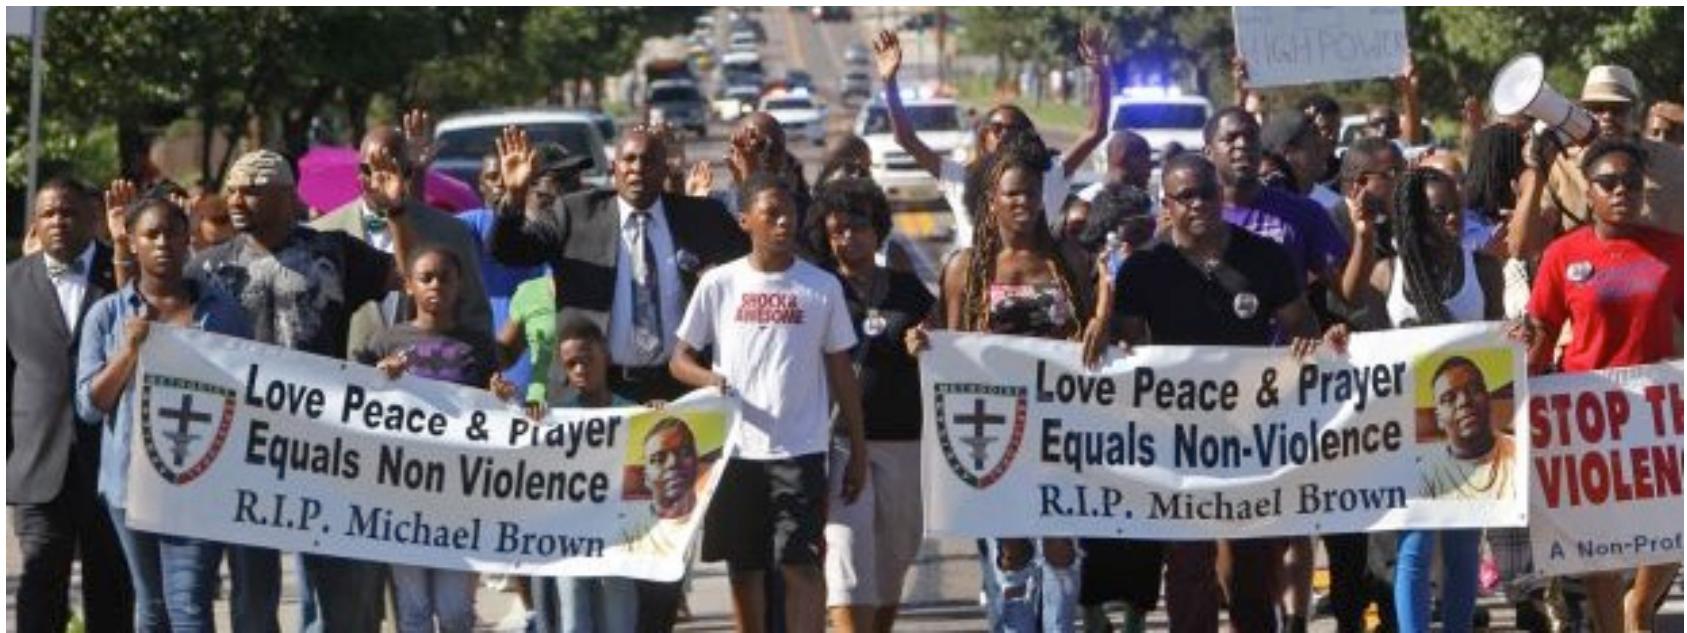

Wikipedia

Humans are social...

Humans are tribal...

Together we are strong...

A Tribe Called Programmer

The software developer community offers many exciting opportunities:

- ❑ Pragmatic: Build a professional network that can help land a better job
- ❑ Educational: Improve your skills
- ❑ Social: Spend time with like-minded individuals
- ❑ Civic: Give back

A Tribe Called Programmer

Several ways you can participate:

- ❑ Open source
- ❑ Conferences
- ❑ Meetup groups
- ❑ Hackerspaces
- ❑ Hackathons
- ❑ Civic hacking

Open Source

“free” as in “free speech,” not as in “free beer”

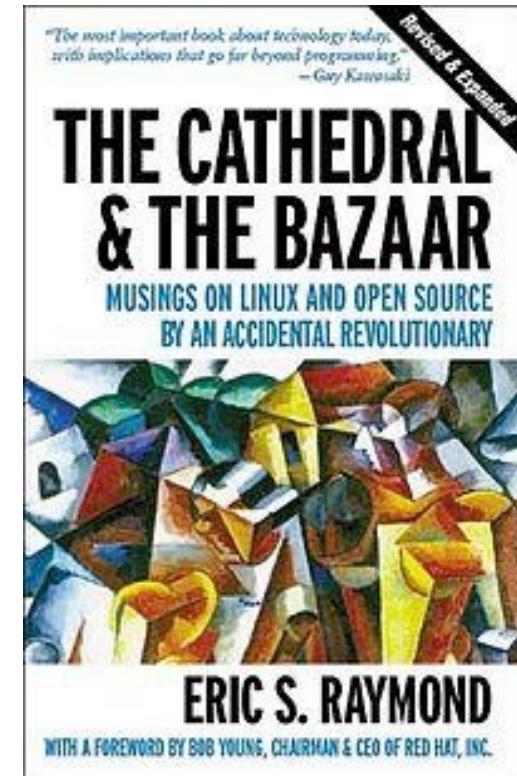

Open Source Software

"Open source software is software that can be freely used, changed, and shared (in modified or unmodified form) by anyone."

-- Open Source Initiative

What is Open Source?

- Eric S. Raymond's seminal work "The Cathedral & The Bazaar" was one of the first explorations of this modern phenomenon
- Today it is estimated 35.9% of the servers on the public internet run Linux (Wikipedia)
- Over 47M downloads of the Rails framework

OPEN.

THE APACHE SOFTWARE FOUNDATION
provides support for the Apache Community of open-source software projects, which provide software products for the public good.

INNOVATION.

THE APACHE PROJECTS ARE DEFINED
by collaborative consensus based processes, an open, pragmatic software license and a desire to create high quality software that leads the way in its field.

COMMUNITY.

WE CONSIDER OURSELVES
not simply a group of projects sharing a server, but rather a community of developers and users.

APACHE PROJECTS

The all-volunteer ASF develops, stewards, and incubates more than 350 Open Source projects and initiatives that cover a wide range of technologies. From Abdera to Zookeeper, if you are looking for a rewarding experience in Open Source and industry leading software, chances are you are going to find it here. [Are you powered by Apache?](#)

FEATURED PROJECTS

Apache Lucene Core

APACHE LUCENE CORE

Apache Lucene is a high-performance, full-featured text search engine library written entirely in Java. It is a technology suitable for nearly any application that requires full-text search, especially cross-platform.

Ways to Contribute

- ❑ Documentation
- ❑ Bug/issue lists
- ❑ Test coverage
- ❑ Create new projects
- ❑ Take over fallow projects

Open Source Etiquette

- ❑ Follow the published rules
- ❑ Adopt their style
- ❑ Be polite and respectful
- ❑ Be open to feedback and requested changes
- ❑ Don't be discouraged if your work isn't accepted

Conferences

Conferences are costly but highly concentrated.

MAKE THE
FUTURE
JAVA

ORACLE

Reasons to Attend Conferences

- ❑ Professional networking
- ❑ Social networking
- ❑ Accelerated learning
- ❑ Hands-on training
- ❑ Present
 - ❑ Submitted CFP
 - ❑ Lightning talk
- ❑ Swag

Evaluating Conference Value

- ❑ How much will it cost (ticket, travel, lodging, food, etc.)?
- ❑ How unique is the content?
- ❑ Will the sessions be recorded and available later?
- ❑ Will you take advantage of the networking opportunities?

Registration Shipment and Game Night

20 Apr 2015

Our registration shipments have been sent. You should expect your package to arrive through the magic of the USPS at the address entered into your Eventbrite registration by the end of the week (4/24). Please remember that you must bring your badge to the event, as that is the ticket for entry into the event and the movie screening.

UPDATE: We've had a handful of reports from people whose registration materials were missing the badge. If your shipment was incomplete, or you didn't get yours, please email us.

We are hosting a board game night on Stir Trek Eve, April 30. Come share a night with the speakers, sponsors, organizers, and attendees of this year's Stir Trek event. We will be at the Columbus Area Boardgaming Society's venue starting at 6pm, and you can reserve your spot now. There will be food trucks, board games, and plenty of time to

What is Stir Trek?

Stir Trek is a one-day conference focused on teaching software developers, and others in the industry, the latest and greatest in technologies, techniques, and tools. The full day of content is always concluded with a private screening of a blockbuster film on its opening day. See our about Stir Trek page for more details.

What Do I Get

Our goal is to bring you significantly greater value than our ticket price. You'll get:

- 40 Sessions of critical content
- Well-known regional and national Speakers
- Private screening of *Avengers: Age of Ultron*
- Breakfast and Lunch
- Refreshments during the movie

Transfers & Refunds

Plans change and we get that. If you find out

Hudson Software Craftsmanship

Meetings News

Upcoming Meetings

Here is our meeting schedule for the rest of 2015. We meet the 3rd Wednesday of each month at the Falafel Software training center in Hudson, Ohio. The address is 1780 Stoney Hill Drive and the building is on the corner of State Route 91 (Darrow Road) and Stoney Hill Drive, about a mile south of 303. We're in Suites A/B - there's usually a sign on the door. The meetings start at 6pm and go until some time between 8 and 9 pm, typically. The usual format is to start with any lightning talks or short code walkthroughs anybody has, followed or replaced by open spaces style discussion. After pizza, we usually do some kind of hands-on practice exercises or kata.

Feel free to bring snacks/drinks/BYOB. We have a few home brew aficionados who occasionally bring something to share. We order pizza based on how many people have signed up via EventBrite for the meeting. The eventbrite URL is fairly predictable - just update the month digit each month. The expected RSVP links are listed below, but note that we don't usually set up EventBrite until a week or two before the meeting, so if it 404s just try again closer to the event (or let us know via twitter). You'll also find the latest RSVP link on [our twitter feed - @HudsonSC](#).

18 Feb 2015 - [RSVP](#)

Akron.io

Connecting the unconnected and promoting Akron's tech community.

If you work with the web, code for the web, or just browse the web; we're here for you. We're a great resource for helping to tie you into the Akron creative community if you're just starting out, are new to the area, or just need to connect with like minded people nearby.

What We Do

Weekly Tech Breakfast

Every Tuesday morning from 7am - 8:30am we meet at [Akron Family Restaurant](#) with other members of the Akron tech community for non-structured chats around tasty breakfast food.

This event is open to anyone so feel free to bring guests. We're usually in the private room at the back of the restaurant. While it's not required, you can let others know you're attending by RSVP'ing on [meetup.com](#).

Not around the Akron area? Check out the Cleveland Tech Breakfast put on by the [Cleveland JavaScript Meetup](#).

Book Library

We provide a free book library at OSC TechLab with 100+ books on various development, design, and entrepreneurship topics which were graciously donated by fellow Akron.io members like yourself.

If you're interested in donating books, please reach out to info@akron.io.

Member Discussion Board

A public discussion board is setup at <http://discuss.akron.io> to help foster communication between Akron's creative professionals.

You'll find discussions on upcoming events, job postings, interesting links, and possibly a cat picture or two.

Weekly Newsletter

Each week we deliver a curated selection of interesting events, job postings, and selections from our discussion board to your inbox.

HEY, WESTLAKE MAKER EVENT ATTENDEES- Instructions for building/programming the robot kit can be found [at this link](#). If you need more assistance, you are encouraged to attend one of our Tuesday Open Hours.

About Us:
The Makers' Alliance is a 501(c)3 nonprofit with the mission of helping the Makers of Greater Cleveland in their various endeavors. We provide a physical space, access to tools and resources, and shared knowledge for people with interests in science, technology and art.

Finding Us:
Our physical location is at 3558 Lee Road, Shaker Heights Ohio, within the Shaker LaunchHouse business incubator.

Meeting Us:
Our open-to-the-public hours are Tuesdays from 7:00pm until 10:00pm or sometimes later, and occasional Saturday hours (posted on the [mailing list](#)). Business meetings occur on the first and third Tuesdays of each month.

Joining Us:
Membership is \$30/month, or \$50/month for a household membership. Membership gets you 24/7 access to the space.

Communicating With Us:
Our main method of communication is [our mailing list](#). (Don't have a Google Account? send mail to makersalliance+subscribe@googlegroups.com)

If a mailing list isn't your thing, we also have presences on various social networks, such as:

- [Facebook](#)
- [Twitter](#)
- [Google+](#)
- [Meetup](#)

Hackathon

Welcome to TechCrunch

#hackath_n

PARTNER SPONSORS

What is a Hackathon?

A hackathon (also known as a hack day, hackfest or codefest) is an event in which computer programmers and others involved in software development and hardware development, including graphic designers, interface designers and project managers, collaborate intensively on software projects."

-- Wikipedia

What is a Hackathon?

- ❑ Single or multi-day intensive programming event
- ❑ One or more teams working in coordination
- ❑ Focus of the event is pre-defined
- ❑ Teams work around event focus and race to build functional prototype
- ❑ One or more teams is often declared the "winner" of the event

What's Cool About Hackathons

- ❑ Professional and social networking
- ❑ Intensive learning experience
- ❑ Generally involve really cool problems
- ❑ Often result in giving back to open source or civic good
- ❑ Sometimes even start a new business

Learn Ruby on Rails

The Cleveland RailsBridge Workshop is a free 1.5 day guided introduction to programming in Ruby and Ruby on Rails.

Sign up for our upcoming September 5th & 6th, 2014 workshop

Do you dream of someday writing software that helps people and improves the world?

Led by an all-volunteer team of seasoned, enthusiastic Ruby and Rails developers, the workshop introduces people of all backgrounds to the concepts, tools, and techniques of Ruby and Rails development. Our audience is those with no or little programming experience.

We welcome you to the Cleveland Ruby community. Whatever your goal is in learning to program, we hope to connect you with the tools to take the next step.

Brought to you by the Cleveland Ruby Brigade and LeanDog. Based on Bootstrap. Icons from Font Awesome. Web fonts from Google.

Civic Hacking

“We have to make bureaucracy sexy.” -- Jennifer Pahlka

A New Form of Governance

Civic Hacking

“A civic hacker is an open source software developer who uses his or her skills to make their community and country a better place. ... A civic hacker will just do something, not asking for permission, ignoring government bureaucracy, in order to build tools and technologies with a civic-minded bent.”

-- Luigi Montanez

Open Data

“Open data is the idea that certain data should be freely available to everyone to use and republish as they wish, without restrictions from copyright, patents or other mechanisms of control.”

-- Wikipedia

Benefits of Civic Hacking

- ❑ Professional and social networking
- ❑ Work on cool problems
- ❑ Learn new things
- ❑ Give back--make the world a better place

We are Open Cleveland

Come join developers, designers, data geeks, leaders, and idea-makers who volunteer to help local government and civic orgs adopt open web technologies.
